

DRI is looking for a highly-motivated and results-driven individual to join our team as an **Analyst** on our Investment team. This interesting and challenging position will provide the right person with a unique opportunity to learn about our healthcare focused global private equity business. The successful candidate would be expected to add value to the firm as a whole, including but not limited to:

- Conducting assessments of the scientific, medical, commercial and technical attractiveness of potential investment opportunities
- Preparing clinical profiles of products of interest, as well as the profiles of current and future competitors for these products
- Generating inputs for global patient-based forecasting models of pharmaceutical, device, and diagnostic products
- Working with existing models developed by colleagues to incorporate new data and verify results
- Preparing presentations to communicate research findings and forecasts to the Investing Team and/or Leadership Team, creating deal sourcing material (opportunity profiles, drug reviews, biographical materials) and deal meeting materials (presentations and pitch books)
- Liaising with other deal team members and senior management on transactions and strategic initiatives.

The DRI core values are “team work”, “integrity” and “drive to win.” Accordingly, the candidate we are looking for will demonstrate the following:

- Outstanding communication skills, both written and verbal
- Excellent interpersonal and well-developed relationship management skills
- A track record of hard work and success
- Strong scientific aptitude and curiosity
- Demonstrated ability to translate complex ideas into concise, compelling content
- Ability to determine the right questions to ask and the drive to find the answers
- Strong organizational skills, with attention to detail and a proactive nature
- Ability to work well in a high pressure, time-sensitive, entrepreneurial environment
- Ability to interact effectively and across various groups (i.e. accounting, finance, investment professionals) and to engender trust and confidence of senior management at all levels

Qualified candidates will have:

- 2+ years relevant professional work experience
- A degree in Life Sciences or other relevant programs such as Pharmacy, biotechnology and/or healthcare
- An MBA, MSc or PhD would be considered an asset
- Quantitative aptitude, and experience with financial analysis
- Possess the requisite Microsoft Office skills, with a proficiency in Excel.

This position is located in Toronto and offers compensation commensurate with experience.

To apply, please submit a resume and cover letter to careers@dricapital.com, citing the position title in the subject line. We thank all applicants for their response but only those considered for an interview will be contacted.
